Petr Hannig

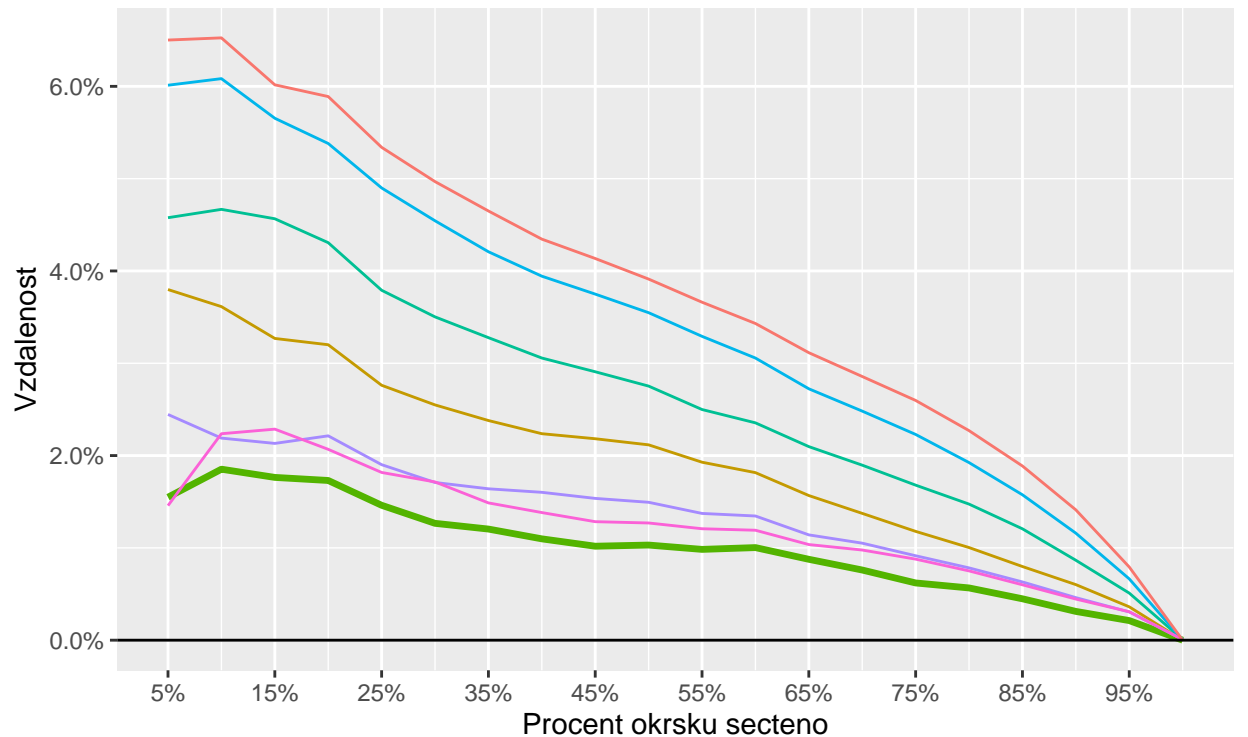

The graph displays the distribution of respondents who cut the grass by the percentage of respondents who cut the grass. The x-axis, labeled 'Procent okrsku sečeno', ranges from 5% to 95%. The y-axis represents the percentage of respondents who cut the grass. A horizontal dotted line is at 0%. Six lines (red, blue, green, purple, brown, and pink) show the distribution of respondents who cut the grass by the percentage of respondents who cut the grass. All lines show a sharp peak around 20% and a smaller peak around 90%.

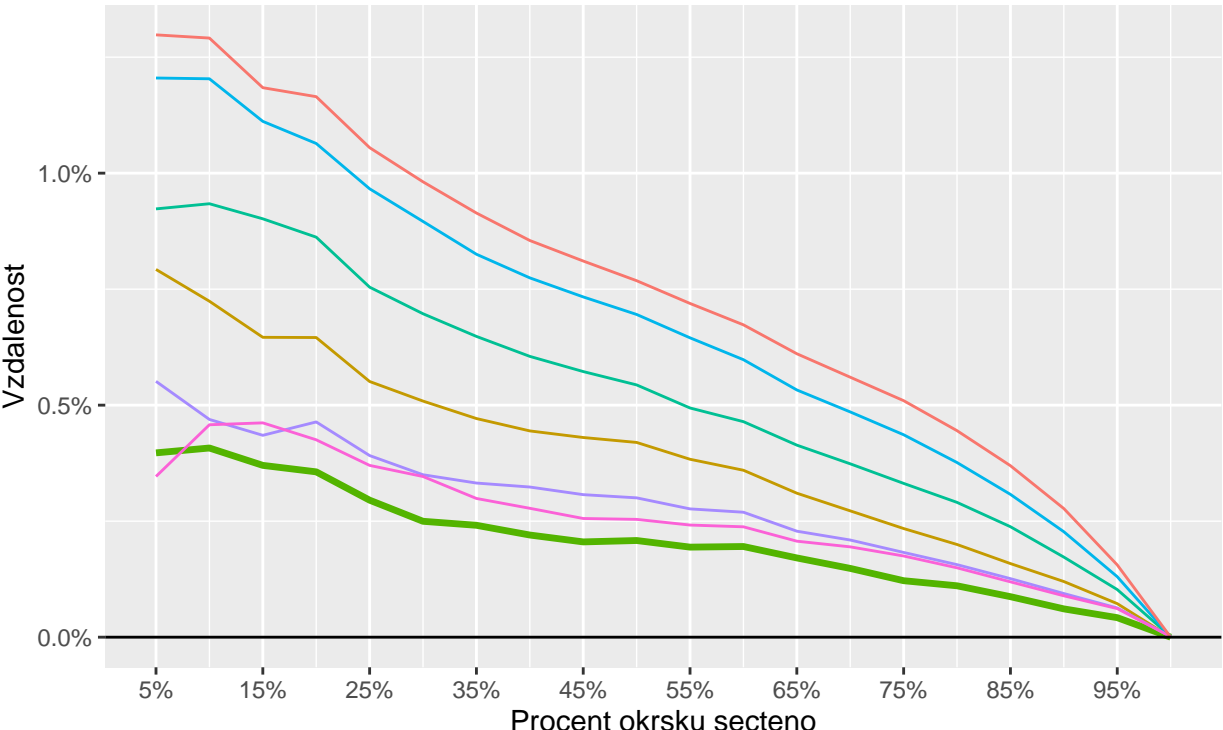

Rozdil obdrzenych procent pro Zemana a Drahose
